

Print-K

Transparent ink series of
18 basic shades for printing
on fabrics of natural and
mixed fibres, added with semi
opaque and pearl shades.

The print is wash resistant after a careful heat treatment:

In a dryer or tunnel 1,5 - 2 min / 150°C / 300°F

Heat press or airon 2x10sec / 150°C / 300°F

When heat pressing with iron, do not slide, but keep the iron on the spot the time required. If needed, you can reduce the colour intensity with **TINT2002**, or **A-3001 Classic**, or **A-5001 Aromfree** bases.

Transparent basic shades

Colour code	Colour title	PMS# ^e
K-1396	Lime	396
K-1002	Primrose	102
